

Tracks:

Imaging	Research update for clinicians	Treatment	Networking opportunities
From the frontiers of clinical science	Hot topics in interdisciplinary research	Satellite symposia	Opening and closing plenaries

Friday, 4 September 2020

Time		Hall A	Hall B		Hall C
06:45	07:45	Run for arthritis	Run for arthritis		Run for arthritis
08:15	09:15	Breakfast Symposium	Breakfast Symposium		Breakfast Symposium
09:30	10:30	Hot topics in clinical care Peter Taylor JAK inhibitors - the journey from mechanistic studies to clinical practice Tuhina Neogi Gout: An issue for rheumatologists?	Exercise as treatment in rheumatic diseases Ulf Ekelund Exercise is medicine! Helene Alexanderson Hanne Dagfinrud Beneficial effects of exercise; lessons learned from myositis Exercise as treatment for spondyloarthritis		Implementing guidelines Thorvardur Jon Love Overview of guidelines in psoriatic arthritis: It's a jungle! Heikki Relas Coordinating care during transition to adulthood in juvenile-onset rheumatic diseases
10:30	10:45	Coffee Break	Coffee Break		Coffee Break
10:45	12:00	Tapering of DMARDs in RA To be confirmed Time to stop? Tapering of DMARDs in rheumatoid arthritis Siri Lillegraven To taper or not to taper: Lessons from ARCTIC REWIND Tuulikki Sokka-Isler The road to sustained remission and tapering in rheumatoid arthritis: The Finnish experience Concurrent abstract #16 Concurrent abstract #17	Pregnancy in rheumatic diseases Frauke Förger How to treat pregnant women with inflammatory rheumatic diseases Pregnancy in systemic lupus erythematosus: Practical management Concurrent abstract #18 Concurrent abstract #19		Gout - an interdisciplinary approach Till Uhlig Treat to target in gout: The Norwegian experience Tone Burvald Enersen Nurse-led care in gout Valentin Ritschl Detection, assessment and management of adherence Concurrent abstract #20
12:00	13:00	Lunch	Lunch		Lunch
12:00	13:00	Symposium	Symposium		Symposium
13:00	13:30	Poster-session #2	Poster-session #2		Poster-session #2
13:30	15:00	Networking for knowledge Oliver Distler Systemic sclerosis: the EUSTAR experiences Lars Rönnblom Experiences from the Swedish SLE network: genetics and beyond Marianne Wallenius Pregnancy and rheumatic disease: the RevNatus experience in a clinical setting	Still's, still in need of treatment Annacarin Horne Diagnosis and management of systemic juvenile idiopathic arthritis Paolo Sfriso Adult-onset Still's disease: pathogenesis, diagnosis and management Annacarin Horne Macrophage activation syndrome: pathogenesis, diagnosis and management To be confirmed Is Still's a genetically determined auto-inflammatory syndrome?		Primary Sjögren syndrome Roland Jonsson Disease mechanisms in Sjögren syndrome; what do we actually know? Gunnel Nordmark Genetic, immunological and clinical evidence for two subtypes of primary Sjögren syndrome Katrine Brække Norheim Update on clinical management of Sjögren syndrome Concurrent abstract #21
15:00	15:30	Coffee Break	Coffee Break		Coffee Break
15:30	17:30	Cutting edge on biologics Lars Erik Kristensen Targeted therapies in psoriatic arthritis - current evidence and future outlook Ronald von Vollenhoven Biologics for systemic lupus erythematosus - a new era dawning? Berit Flatø Targeted therapies in juvenile idiopathic arthritis; children are not small adults Concurrent abstract #24 Concurrent abstract #25	Interstitial lung disease - state of the art Kevin K. Brown What do we actually know about interstitial lung disease in rheumatoid arthritis? Anna Maria Hoffman-Vold Simon Walsh Good management practice of systemic sclerosis interstitial lung disease Artificial Intelligence and imaging: Time to replace the radiologist? Concurrent abstract #27 Concurrent abstract #28 Panel discussion		Digital health care Line Raunsbæk Knudsen Development of an e-learning patient education program targeting patients with rheumatoid arthritis: from content to design Liv Marit Valen Schougaard Birgitte Berentsen Remotely engaged: Lessons learned from routine use of patient reported outcomes Internet guided intervention for irritable bowel syndrome: An interdisciplinary approach Nina Østerås Patient monitoring in rheumatic diseases: The TANGO-project and proposal for a core set for remote patient reported outcomes Concurrent abstract #26
18:30		Congress Dinner	Congress Dinner		Congress Dinner
